

Air Pressure Regulator/R364

Miniature

- Easy to operate via push-bar lock knob.
- Diverse choices for pressure change.
- Reversible option.
- Compact and easy for installation and repair.

JIS Symbol

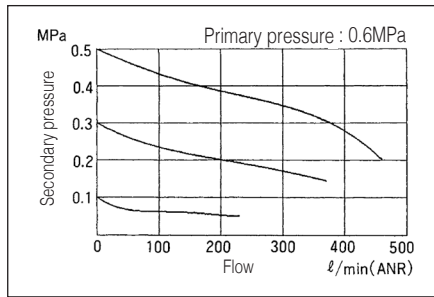

R364-02

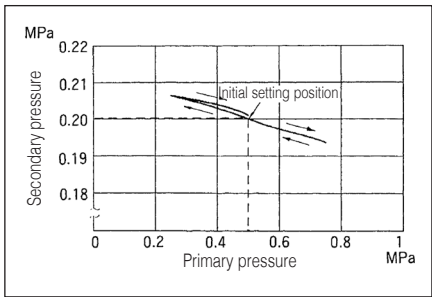

Specifications

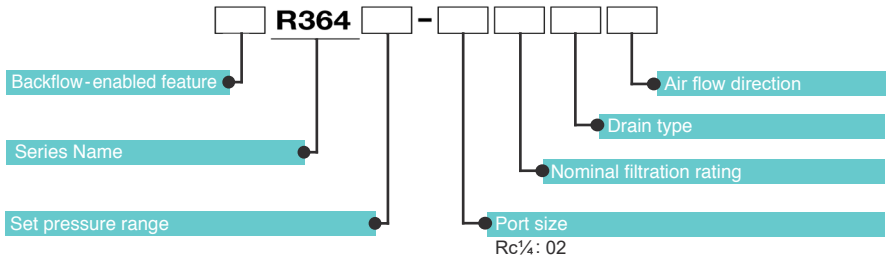

Model No.	Unit	R364-02
Port size		Rc $\frac{1}{4}$
Maximum operating pressure	MPa[kgf/cm 2]	1.4(14)
Proof pressure	MPa[kgf/cm 2]	2.1(21)
Operating temperature range	$^{\circ}$ C	5~65
Set pressure range	MPa[kgf/cm 2]	0.02~0.75(0.2~7.5)
Weight	kg	0.21

Flow characteristics

Pressure characteristics

• Please refer to symbol specification table and option table.

Option

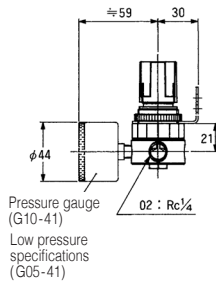

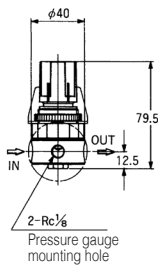

Model No.		Mark	R364-02
Set pressure range	Standard pressure (0.02~0.75MPa)	Without mark	⊙
	Low pressure (0.01~0.3MPa)	L	○
Pressure relief mechanism	Pressure relief type	Without mark	⊙
Backflow-enabled feature	Standard	Without mark	⊙
	Backflow - enabled	B	○
Pressure gauge		G	○
Bracket	Standard	B	○
	Mounting panel	A	○
Air flow direction	Left to Right	Without mark	⊙
	Right to Left	R	○

⊙ Standard ○ Option
